

Did you know...

that 84% of people detained by I.C.E. in 2025 are deemed as having “No Threat Level”, despite the Trump Administration’s claims that they are going after the “worst of the worst”?

Did you know...

that only 7% of people detained by I.C.E. have been convicted of crimes related to aggravated felonies, violence, major drugs, terrorism or threats to national security?

Did you know...

that as of October 2025, at least 22 people have died in ICE detention centers, while they are in the care of our government, according to the American Immigration Council?

Did you know...

that people in I.C.E.’s detention facilities sometimes have no access to lawyers, no ability to alert family as to their whereabouts, and no way to speak to their children / parents / spouses?

Did you know that the living conditions are reported to be poor in many of these facilities, with inadequate food and bathroom facility access, and with members of Congress unable to perform their Constitutionally protected inspections?

And did you know that the Trump Administration is subjecting CHILDREN to these conditions, sometimes locking kids up for weeks at a time, in violation of the law?

ICE detentions in 2025

Why am I receiving this?

Today, we have 1) politicized media and 2) algorithms the big tech companies use to control what information we receive. In other words, too often, people only see what those who control the algorithm want them to see, which is content that they already agree with. Therefore, millions of people will never see the above information, because it isn’t in their social media feeds, and their chosen news sources won’t publish it. In order to heal our society, we have to communicate with one another again. We are going door-to-door, the old-fashioned way, so that people know what’s going on.

TOGETHER, WE WILL SAVE OUR DEMOCRACY

How can I help? Visit: indivisible.org for more information. Indivisible is a non-partisan, peaceful, grassroots organization with a single mission: protecting our democracy and defending our Constitution. All are welcome, Republicans and Democrats alike, and from every walk of life. We may disagree about some things, but anyone who wants to protect our democracy and defend our Constitution is welcome with us!
